RECROS Project development workshop

Profile

SME, **private**, Ltd. **consulting** company, since **1991**

(Established with the agreement of the Ministry of Energy of Slovenia)

Aim

Pave the way and support renewables and energy efficiency in
Slovenia

Activities and field of work

- Consulting, energy policy, feasibility studies, local energy concepts, RES projects development (Biomass DH and CHP, PV),
- Experts in NREAP, BAP, FIT design, EnGIS, Slobiomass, PV platform,...
- Promotion, publishing, education, workshops and seminars
- Partners in many international projects (Phare, Interreg, Central Europe, Mediterranean, South East Europe, IEE, Altener, SAVE, Concerto, ...)

RECROS Project development workshop

Possible contributions to the RECROS project proposal

- Possible to address another crossborder region; e.g. **river Mura** involves Austria, Slovenia, Croatia and Hungary
 - One of the richest habitats and naturally preserved river (Natura 2000, proposed transboundary regional park)
 - Currently in Slovenia under debate of its exploitation for hydropower
- ApE has long years experiences with EU projects, involved in all WPs, could lead soem if needed
